

Walton Hall Academy : Long Term Planning

SUBJECT	Geography	CLASS	Year 7	ACADEMIC YEAR	2016-2017
---------	-----------	-------	--------	---------------	-----------

Main Aims

To know and identify the main physical and human features of the UK

To be able to interpret a variety of maps

To be able to define weather and understand what causes it (focus on temperature, precipitation, air pressure, wind speed and wind direction)

To understand the difference between weather and climate and know what factors influence climate by studying examples.

To understand that Earth's hard outer layer is cracked into plates moving on the hot, soft rock below them resulting in earthquakes and volcanoes.

To be aware of the impact of earthquakes and volcanoes.

<u>Half Term 1</u>		<u>Half Term 2</u>
<u>AUTUMN</u>	What is Geography? Exploring Britain	Map and Atlas Skills
<u>SPRING</u>	Extreme Weather	Climate Change

SUMMER	Plate tectonics, Earthquakes and tsunami	Volcanoes, case studies and human response to living in areas of high tectonic activity
